Breaking Strength	C648	> 100 lbs.
Scratch Hardness	MOHS	4.0
Chemical Resistance	C650	Resistant

Meets ANSI A137.2 for glass tile.

## NOTES

Crystal Shores is produced using a special manufacturing process that makes each piece unique. Color, shading and irregular edges are characteristics of Crystal Shores and are inherent in standard production. These subtle variations can impact the final grout joint appearance and enhance the natural visual of this series.

Strong random shading enhances the natural beauty of this product. To achieve optimal results, tile should be selected from multiple cartons and shading arrangement planned prior to installation.

Since there are variations in all glass products, tile supplied for your particular installation may not match these samples. Final color selection should be made from actual tiles and not from tile samples or color reproductions. Manufactured in accordance with ANSI A137.2 standards.
